3. www.123teachme.com/learn_spanish/fun_and_games

Choose the 'Tank Battle - pc' game. On the left read the control directions carefully then scroll to 'Colors 1' and click. You will see the game screen. After you click play, a fill the blank phrase will pop up for which you choose the correct answer. Watch for gender/number matches. Correct answers give you fuel for your tank. Incorrect ones cause the enemy to fire on you. If you explode the game is over! Record your score on hits to the enemy here! It is in the upper right hand corner of your game screen. Record your Health score, too, found in the upper left corner.
