

COLLEGE CREDIT PLUS Qanda

IS YOUR CHILD READY

Many students may think they are ready to transition from high school to college, but there are some items to keep in mind. Once students are enrolled and accepted to a college, much responsibility falls on them. If there are issues with logging into the college website, a disagreement with the professor, etc...students must realize that these issues become their job to resolve.

MATURE CONTENT

Information about the potential for mature subject matter, as defined in section 3365.035 of the Revised Code, in courses in which the student intends to enroll through the program and notification that courses will not be modified based upon program enrollee participation regardless of where course instruction occurs. The information shall include the permission slip described in division (B) of section 3365.035 of the Revised Code.

REGISTRATION/CLASS SELECTION

Students must be prepared to meet with the HS guidance counselor as well as the college to determine the best course of action involving courses they need to graduate high school.

DEADLINES

It is very important that students and parents understand the importance of deadlines once committing to the College Credit Plus program. Often the high school and the college do not have the same deadlines and/or calendars which often conflict with one another. It is important to plan ahead when scheduling classes at the high school and at the college.

SCHEDULING

Know how to communicate and make appointments! Students MUST be responsible in order for college credit plus to be successful. Students who do not follow deadlines for registering for courses could jeopardize their high school graduation.

PASS/FAIL DROP/ADD

What happens when I fail a course?

Classes failed or withdrawn with an "F" will receive an "F" on the high school and college transcripts and will be computed into the high school and college GPA. If you do not receive a passing grade, the district may, in some instances, seek reimbursement for the amount of state funds paid to the college on your behalf for that college course. The school district may withhold grades and credits received for high school courses taken until reimbursement has been made.

- HS transcript reflects college grade
- College grade follows you thru all post secondary education

TUTORING (HS TEACHERS)

Once the decision to take college level classes has been made, students need to understand that help from TV staff in those specific courses is limited. Many students have decided to take college level courses and expect high school teachers to find time to help them when they are struggling.

CAMPUS COMMITMENTS

Who provides transportation?

Responsibility for transportation rests with the student. Students who take online college courses are often required to attend the college for testing. Students must be able to make arrangements to attend college on these days.

- E-tutoring available
- Testing taken on campus

ATHLETIC ELIGIBILITY/EXTRA-CURRICULAR

How does College Credit Plus impact athletic eligibility?

If you are a student athlete, you must remain eligible in accordance with the Ohio High School Athletic Association (OHSAA) bylaws. To be athletically eligible, students must be passing five, one credit courses or the equivalent per grading period with the high school and college courses combined. Most College Credit Plus courses taken during a semester will equal one Carnegie unit, allowing students to earn more than the required five for athletic eligibility. Please check with your counselor to ensure that the course work you are taking is compliant with the OHSAA.

OTHER ITEMS TO ADDRESS

- Username/passwords become responsibility of student
- Textbook pick-up- students responsibility
- Weather issues- report to college...make up work here
 - Students responsibility to contact HS teacher to get all work missed
- New CCP students must complete an online orientation before signing up for classes
