COVID UPDATES

Don't forget your mask!

TIP: pack an extra mask in your backpack!

Continue to check the school website for coronavirus updates and procedures.

<https://www.tri-village.k12.oh.us/>

The school district will continue to follow all state and local guidelines.

So proud of all the students for doing their part to stop the spread of germs in the building! They are wearing masks, washing hands, and social distancing!

Please continue to keep students home from school when they are sick. Guidelines for keeping students home from school are posted on the school website. When in doubt, err on the side of caution and call your school nurse for guidance. *Don't forget to call the secretary to report your child's absence by 8:30am.*

HEARING AND VISION SCREENING

If your child has glasses, please have them wear them daily for success in school!

October is the month for screening! Kindergarten, 1st, 3rd, 5th, 7th, 9th, and 11 grade students will have their vision and hearing checked. All new students will also be screened. Referrals will be sent home with students if they do not pass their screening. If you have a concern about your child's vision or hearing, please contact the school nurse.

October 2020

IMPORTANT HEALTH INFORMATION/COMMUNICATION

Students requiring prescription medication use or treatment while at school must have the Prescribed Medication Administration Form signed by the student's physician and parent. This must be turned in to the school nurse prior to administration at school.

Students requiring over the counter medication use at school must have an Over the Counter Medication Permission Form signed by the parent and turned in to the school nurse prior to being administered at school.

Forms can be found online at <https://www.tri-village.k12.oh.us/> under the Forms/Links tab or may be picked up in the school office.

Parents/guardians should notify the school nurse of a student's medical condition (*i.e. asthma, allergies, seizure disorders, bleeding disorders, diabetes, etc.*) so the proper paperwork can be completed. Diagnosis specific Health Care Plan Forms are available to ensure that the student is treated appropriately in the event of an emergency.
