## Inclement Weather

Tri-Village Families,

Our district staff understands that our decision to open or close schools in bad weather has a big effect on families. We also understand that our students are better served both academically and socially by being in school. But as always, our top priority is the safety of our students.

Once a decision has been made to close school or delay the opening, the Superintendent will activate our One Call Now System, which means all parents will receive an automated phone call indicating that school has either been cancelled or will open late.

In addition to the automated call the information will also be sent to the following media, websites and social media outlets listed below.

The decision to close or delay the opening of school is made by the Superintendent of Schools. This decision is based upon the most up to date information available from the various resources. The decision to close or delay school is usually made by 5:45 A.M. However, weather conditions do change sometimes and decisions may need to be altered after that for the safety of our students and staff. If the announcement is not on the television or an automated call is not received the previous evening, the decision has not yet been made. Under typical circumstances the decision is not made until the early morning hours of the day in question.

We appreciate your support and cooperation in this matter. The safety of our children will always be our prime consideration.
